Eastern Star Officers to be Installed Dec. 8

Open Ceremony Will Be Held in Masonic Temple Wed. Evening

An open installation will be held by Antioch Eastern Star chapter No. 428 Wednesday evening, December 8, in the Masonic temple, at 8 o'clock.

Heading the officers to be installed are Mrs. Margaret E. Gaston, worthy matron; Ralph Kinrade, worthy patron; Helen Chapman, associate matron; and Richard Chapman, associate patron.

Selma Trieger is secretary; Esther Wilton, treasurer; Helen Carlson, conductress; Harriet Davis, associate conductress; Adah Hachmeister, chaplain; Sophia Hennings, marshal; Alice Freeman, organist.

The "star points" are Mae Kinrade as Adah; Mabel Solomon as Ruth; Myrtle Horton, Esther; Lucille LaPlant, Martha; and Lillian Muschi, Electa. Ida Osmond is warder; Martha Hunter, sentinel; and Joseph Horton, color bearer.

Installing Staff

Mrs. Fern Lux, past worthy matron of Antioch chapter, is to be the installing officer; Myrtle Klass, past worthy matron, installing chaplain; Eleanor Michell, also a past worthy matron, installing marshal.

Mrs. Alice Freeman, member of the Hunter Town, Ind., chapter, is to be installing organist.

Acting as escorts will be three past worthy patrons of Antioch chapter, Robert Wilton, William Anderson and Oscar Hachmeister. Flowers will be under the charge of Elizabeth Webb, past matron of the chapter.

Arthur Laursen, worshipful master of Sequit lodge of the Masons, will act as color bearer and will give the Ode to the Flag. The instructress will be Elsie Ferry.

Mrs. Sophia Hennings is the retiring worthy matron and Joseph Horton the retiring worthy patron.

The next regular meeting of the Antioch Star chapter will be held Thursday evening, Dec. 9.

Lions Hear Talk By Well Known Safety Engineer

Lincoln H. Lippincott, consulting safety engineer, spoke before the Antioch Lions club Monday evening at Soper's Spa, on "Adventures Among Lions."

Lippincott is in the employ of the Lumbermen's Mutual association and a member of the Rogers Park, Chicago, Lions club. He is greatly in

demand as a speaker and has addressed 31 Kiwanis clubs, 32 Rotary clubs, 41 high schools and 24 Lions clubs this year.

He is a charter member and is national secretary of the "Not Over 50 Club." Since January, 1937, he has given more than 1,200 talks on safety before clubs and schools.

Lippincott is the author of the booklet, "Stop Accidents, Speed Victory," first given in the form of an address before the National Safety Council.

On Dec. 13, the Antioch Lions will hear a talk by Col. Chester Fortney, commanding officer of the Sixth area of the Marines. He will be on Marine activities. Col. Fortney is described as "An old, hard-boiled Marine of the last war." The talk will be held at Charles Anderson's place at Petite Lake.

Three Are Injured When Auto Tire Blows Out

Cuts and bruises were sustained by three occupants of an automobile which struck a fire hydrant and a power line pole when it skidded on the pavement after blowing out a tire Tuesday evening around 11:30 o'clock on North Main street. Richard Schneider of Lake Villa, son of Mr. and Mrs. Walter Schneider, was the driver of the vehicle, which was registered in Mrs. Schneider's ownership. Dale Dukerman and Lorraine Rambow, both of Lake Villa, were the passengers.

Miss Rambow, who sustained cuts about the face, was taken to the John L. Dupre home, where Mrs. Dupre, who is a trained nurse, administered first aid while Dr. I. L. Breakstone of Antioch and the parents of the young people were notified. On Dr. Breakstone's advice, Miss Rambow was taken to St. Therese hospital in Waukegan, where she remained overnight, returning to her home in Lake Villa Wednesday.

The windshield, radiator and grill of the automobile were badly damaged.

From Cpl. LeRoy R. Larsen—

"Just a few lines to let you know that I am on maneuvers in Tennessee. This is the second maneuvers I have been on so far. I was on the maneuvers of 1941, only I was a little further south of here, for four months; so this is nothing new. I was home on furlough with my wife and son, who was born Sept. 3 in Wilmington, Del. They are now in Delaware City, Del., at the present time. I have been looking around for Donald Elfering, who is also down here in Tenn. I have been stationed at Fort Du Pont, Del., for the past two years. I couldn't get time when I was on furlough to thank the people of Millburn, Ill., for the christening of my son, David Joseph, while I was there. My wife and I send our regards to the people of Millburn and Antioch."

Fred Wallsmith Rites are Held In Waukegan Wed.

Father of Mrs. Kenneth E. Ashe Dies at Age of 85 Years

Funeral services for Fred Wallsmith, 85, father of Mrs. Kenneth E. Ashe of Antioch, were held in the Peterson Funeral home, Waukegan, Wednesday afternoon at 2 o'clock, with burial in Oakwood cemetery.

The Rev. Frank Erdey of Milwaukee, formerly pastor of St. John's Evangelical Reformed church of Waukegan, officiated.

Wallsmith had made his home here with Mrs. Ashe for the past few years, but had resided in Waukegan for 60 years previously. He was a retired worker for the American Steel and Wire company.

He was born in Germany Jan. 17, 1858. Coming to this country as a young man, he enlisted in the United States army. He later settled in Waukegan.

In addition to Mrs. Ashe, he is survived by two other daughters, Mrs. Elizabeth Wood and Mrs. Lottie Stroud of Waukegan, and by four grandchildren, Esther Elaine Stroud, Robert Del Stroud, Beatrice Charlotte Ashe and Marlan Wood. Mrs. Wallsmith preceded him in death six years ago.

Announce Examinations for West Point and Annapolis

Acting on behalf of U. S. Senator C. Wayland Brooks, the American Legion will conduct examinations at Bloomington on January 8 to select one nominee and one alternate for appointment to Annapolis and two nominees and two alternates for appointment to West Point. The appointment to Annapolis is open to all young men in Illinois between the ages of 16 and 21, who are between five feet, 5 1/2 inches and six feet, 4 inches in height. The West Point candidates must be between 17 and 22 years old and not less than five feet, 8 inches in height. Married men or those previously married are not eligible to either institution.

To insure impartiality, the Legion has arranged to have all examination papers machine-scored by the University of Illinois. Candidates for West Point must agree to serve in the Army for at least eight years after being accepted as cadets.

Full particulars on the examinations may be secured from the Illinois headquarters of the American Legion at Bloomington. All applications must be made to that office by December 21.

CO-OPERATION IS WINNING THROUGH!

Famous Magician to Be Aided Dec. 7th By Miss Winfield

"Head Disappearing Act" Will Be Featured in Program at High School

Miss Ruth Winfield, a senior at Antioch High school, will assist Ralph Pierce, magician, in the "head disappearing act." This act, performed daily at the New York World's Fair, a few years ago by Pierce, will feature his appearance at Antioch High school Tuesday, Dec. 7, starting at 8 p. m.

In addition to his regular display of magic tricks, Pierce will introduce ten of the local High School boys who will be transformed into glamour girls and will then put on a style show.

Pierce is said to be no ordinary magician; his expensive wardrobe and re-vamped stage equipment and setting are said to make his show the best in the country.

The show is sponsored by the Future Farmers Chapter of the Antioch High school.

A matinee performance at 2:45 p. m. will be held for grade school and high school students.

Henry T. Mennel Funeral Services Conducted Here

Channel Lake Resident Passes Away at St. Therese Hospital

Funeral services were held at St. Peter's church Saturday morning at 10 o'clock for Henry T. Mennel, 65, who died in St. Therese hospital, Waukegan, Thursday, Nov. 25.

The body was brought to the Strang Funeral home in Antioch. Burial was in Mt. Carmel cemetery.

Mennel, who was a sheet metal worker, was born at Quincy, Ill., July 1, 1878. He was a resident of Woodcrest subdivision at Channel Lake.

Survivors include his wife, Emma C. Mennel, and a daughter.

OLD TIME DANCE CLUB EXTENDS INVITATIONS TO PROSPECTIVE MEMBERS

Persons interested in becoming members of the Old Time Dance club, of which C. L. ("Les") Heath is president, may communicate with him, it was announced this week.

The club generally sponsors six dances each year. The next one will be held in St. Ignatius hall in Antioch, Saturday evening, Dec. 11. Special entertainment is planned.

The dance committee includes Messrs. and Mrs. Robert McCann, C. L. Heath, August Teichert, Henry Pape and Homer LaPlant.

More than 50 friends of Rudy Strametz, Grass Lake, gathered at Nelson's Corners Sunday evening to hold a farewell party in his honor. Strametz, who left to enter training at Great Lakes Tuesday, was presented a service watch. His wife and their son and daughter will remain at their Grass Lake home, according to present plans.

Red Cross Unit Has Completed Work Quota

The Antioch Red Cross Surgical Dressing unit has completed its present quota of dressings and its work will be suspended until a new quota is received. Mrs. W. W. Warriner, chairman, announced today. As soon as a new quota is received, a notice will be published, Mrs. Warriner states.

Mrs. Emilie Paasch Dies at Pikeville Residence, Aged 76

Mother of Antioch Resident Passes Away After Lingering Illness

A lingering illness of 15 months' duration ended in death for Mrs. Emilie Paasch, 76, who passed away at her home at Pikeville, Bristol township, Wis., Friday, Nov. 26, at 10 p. m.

Funeral services were conducted by the Rev. W. C. Henslee of the Antioch Methodist church Tuesday at 2 o'clock in the Strang Funeral home. Burial was in Hosmer cemetery near Bristol.

Mrs. Paasch was born in Germany July 6, 1867, and had lived in Bristol township for the past 59 years. She was the widow of August Paasch, to whom she was united in marriage March 24, 1902.

Survivors include a daughter, Mrs. Lena Huffman, sons Fred, William and Harry, all of Bristol township; a son, John, of Burlington, Wis.; a son, Herman, of Rhinelander, Wis.; a daughter, Mrs. Vera Baber of Antioch; and another daughter, Mrs. Leta White, of Russell, Ill.

A brother, Carl Risch, is a resident of Bristol. There are 14 grandchildren and five great-grandchildren.

METHODISTS CO-OPERATE IN BIBLE READING CRUSADE

The following announcement has been made by the Antioch Methodist church:

"More than two million individuals of Chicago and all will be reading the same great chapters of the Bible at the same time in the Bible Reading Crusade in progress Dec. 1 to 15."

"This crusade is conducted by the American Bible society and is inter-denominational. We of Antioch should be a part of this great movement."

The chapters are:
Dec. 1—Isaiah 55
Dec. 2—Psalm 23
Dec. 3—Luke 2
Dec. 4—Matt. 5
Dec. 6—Matt. 7
Dec. 7—Isaiah 53
Dec. 8—Luke 15
Dec. 9—Romans 8

Dec. 11—Psalm 91
Dec. 12—1 Cor. 13
Dec. 13—John 3
Dec. 14—John 14
Dec. 15—John 17

"You are invited to worship at the Antioch Methodist church at 11:00 o'clock next Sunday and every Sunday."

—W. C. Henslee, Minister.

Mr. and Mrs. Walter Solomon celebrated their ninth wedding anniversary in Chicago with a dinner and theater party.

Tuberculosis is On Increase, Lake Co. Ass'n. Warns

Contribution Through Purchase of Seals Helps Combat Disease

New cases of tuberculosis in Lake county have shown a 68% increase in the last year, according to Miss Orpha L. White, executive secretary of the Lake County Tuberculosis Association.

"It is more important now than ever before to buy and use Christmas Seals," Miss White said. "The sale of the penny seals at Christmas time is the only source of income of our association, which is on the job all year through, educating young and old as to the dangers of the disease, giving tests in schools throughout the county, and exerting every effort to detect new cases as quickly as possible and to cure the cases already discovered."

168 New Cases

"Our records show that from Dec. 1, 1941, to Nov. 30, 1942, there were 100 new cases of TB reported in Lake county. From Dec. 1, 1942, to Nov. 30, 1943, we find that 168 new cases were reported. These figures show the necessity for increased vigilance in our efforts to rid the county of tuberculosis. Undoubtedly some of the new cases are accounted for by the influx of defense workers. Some have been discovered because the public has been made TB conscious through our educational program, many of the cases have been discovered through the association's case finding program.

"We must double our efforts to check the spread of the disease, which always shows an increase in war time. The best way every one can help is by buying and using the Christmas Seals which went out in the mail last week."

Last year the Seal Sale in Lake county brought in \$10,406. Miss White hopes that this year, with a bigger job to do, the Seal Sale will reach the \$23,000 mark. Ninety-five cents of every dollar raised through the Seal Sale remains in Lake county. The other 5 cents goes to the National Tuberculosis association, to be used in carrying on research and a nation-wide educational program.

Industry, both labor and management, today recognizes the importance of the worker's health in the big job of turning out the maximum production of munitions, ships, planes and mechanized armaments, Miss White said. Industry also realizes that tuberculosis ranks first as a cause of long periods of lost time and that it is thus a costly disease.

Legion Auxiliary Contributes to Welfare Projects

Gives Donations to Loan Fund, Ft. Sheridan and War Fund

At a meeting Friday evening in the home of Mrs. A. H. Kaufman, the Antioch American Legion auxiliary voted to send \$5.00 to the Auxiliary Loan fund; \$5.00 toward the furnishing of a recreation room at Fort Sheridan, and \$5.00 to the National War Fund campaign.

Mrs. Lillian Hland, membership chairman, reported an enrollment of 71 members, the largest the Antioch unit has ever had.

After the business meeting five hundred was played, with high scores going to Meses. Anne Heath, Carolyn Horan, Jean Ferris, Mary Runyard and Myrtle Klass.

Hostesses for the evening were Meses. Maud Johnson, Doris Caple, Lydia Edwards and Tillie Miller.

The next regular meeting will be held Dec. 11 in the home of Mrs. John Brogan. As there will be only one meeting in December, this will also be the auxiliary's Christmas party, and each member will bring an article for the gift exchange which will be a feature.

Mrs. Effie Nelson, Mrs. Vera Rentner and Mrs. Frank Harden were Kenosha visitors Wednesday. They made their return trip by way of Waukegan, where they called on Mrs. Harden's mother, Mrs. Sine Laursen, at Victory Memorial hospital.

Mrs. Clarence White and daughters, Eleanor and Carol, spent Thanksgiving and the week-end at Chetek, Wis., visiting relatives and friends.

Is Debt Harmless?

A leading exponent of the public-debt-without-limit philosophy reiterates that, "If the national debt is all internal, as ours is, the nation can hardly go bankrupt."

"This philosophy will require more and more explaining as time goes on. People whose earnings and savings are reeling under the double impact of taxes and inflation, are going to ask some questions that will be hard to answer. Not being accomplished economists; they will inquire why, if the size of the debt is unimportant, should they be asked to pay heavier taxes as the debt increases? And why, if it is merely a matter of owing the debt to ourselves, should the tax collector be so merciless in collecting to the last penny?"

The "owe ourselves" theorists have always claimed that as the debt grew, the affairs of the country could be so arranged that the debt would actually be beneficial. They call it a managed economy. Today we have a huge and growing debt plus a managed economy more complete than the believers in harmless debt ever dared hope for. We also have confiscatory taxation, uncontrolled strikes, rising prices, and shortages of everything from shoestrings to locomotives. The people are nearly convinced that the managed economy is a flop, and they are beginning to wonder just how harmless is debt. At any rate, they are demanding that government economize wherever possible; that is something tangible which they can understand.

The people in their collective wisdom may save the nation.

Up or Out!

Months before Pearl Harbor the oil industry realized that war was inevitable. It set about mobilizing its resources against the nation's call to arms. When war came, the industry—almost overnight—accelerated the production of military gasoline, including 100 octane aviation gasoline, super lubricants and hundreds of other petroleum products critically essential to the conduct of modern mechanized war. Thanks to the foresight of oil men, every military demand has been met, as well as essential civilian needs—to date.

But these same men now sternly warn that oil production will not meet future essential needs unless prompt steps are taken to adjust the price of oil to meet rising production costs. Price is no longer merely a question of academic discussion. This country is running short of oil. Wildcaters are not drilling, because the possibility of profit, or of even recovering cost, is too scant to cover the risk.

Warnings of impending oil shortage and what to do about it have been sounded by many others besides representatives of the oil industry. Typical is the comment of Col. Ernest O. Thompson, member of the Texas Railroad Commission, who says: "If the price of oil had been permitted to advance on a parity with other basic commodities, 'wildcaters' would have found oil and the anticipated 500,000 barrels a day shortage would have been supplied. As it is," he concluded.

"crude oil is on a day to day basis—well to refinery to over. There is no longer a surplus of stock in storage to draw from."

Is it reasonable to expect the price of crude oil to remain stationary? It will go up to meet cost of production or the country will go without oil. It will be either up or out!

Government Owns One-Fifth of U. S.

—States Express Concern

One-fifth the land area of the United States is owned today by the government.

When Congress' Joint Committee on Reduction of Non-essential Federal Expenditures found that out the other day—with "apprehension"—there followed an immediate demand that liquidation of surplus government holdings be started immediately.

"Growing concern" exists in many states, the committee asserted, over the situation. It added that "excessive amounts of land" have been purchased by the government since 1918.

More than 600 Federal establishments are on a parity as to administrative control and responsibility, the committee declared, and no central agency keeps track of "how much land the government owns, where it is, or how much it costs."

The committee, headed by Senator Byrd (Dem. Va.), estimated the government land holdings equal in size to the combined areas of Maine, N. H., Vt., R. I., Mass., Conn., Pa., N. Y., N. J., Maryland, W. Va., Va., Del., North and South Carolina, Ga., Fla., Ohio, Ala., Ky., and Ind.

The Byrd committee said that in the last two and a half years alone the government has acquired real estate totaling 14,784,000 acres—approximately the area of seven Eastern states.

On Postwar Planning Now

Victory is certain for us. Tragically, too many of our boys are yet to die for it—but the only question now is the time of its coming.

We need not be forgetting their sacrifices today as we begin thinking intelligently of tomorrow. We shall not.

But, as responsible an informant as Raymond Clapper estimates that when Germany drops out, "American war production in total can be cut at least 50 per cent."

Industry's change over to civilian production must be well planned to be smooth and speedy, notes Clapper—"otherwise heavy unemployment will develop." He cites a single instance—a \$20,000,000 manufacturing plant which now has \$50,000,000 worth of government materials in it. What if Washington were to order that production stopped tomorrow? Civilian production could not be resumed until those enormous stocks could be removed to storage—where?

Hundreds of such instances exist, of necessity, as industry is all-out in war production. We at home would not be worthy of our fighting men's sacrifices were we to be caught as unprepared for peace as we were for war.

Meet the Meat!

Months watered from Maine to California, from the Great Lakes to the Gulf, when it was announced last week that in one American city "more than 12,000 pounds of meat a week" were going to waste.

Meat wholesalers, both apog and aghast, made the announcement.

The city where the meat was going to waste? You guessed it—Washington, D. C.

From a transport in New Guinea American members of hospital units are carrying medicine and instruments provided by War Bond dollars.

How many will they succeed; how many dead will they find? How many will never return? We do not know but we do know our daily conduct can make an earlier end of the war.

Give your dollars action: Buy More War Bonds.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

ABIDING VALUES FROM ISRAEL'S HISTORY

LESSON TEXT—Deuteronomy 11:13-23.
GOLDEN TEXT—Righteousness exalteth a nation, but sin is a reproach to any people.—Proverbs 14:1.

What makes a nation great? God's dealings with Israel answer that question. The history which we have briefly touched upon in our study of the first four books of the Bible is reviewed in Deuteronomy.

Moses, realizing that the end was at hand for him and that a new generation was about to go into the promised land, reviewed the history of the people, restated their laws, and renewed the appeal of God for their loyal obedience. This record is found in the Book of Deuteronomy, from which our lesson is taken.

We find here that the nation which is truly great—

I. Worships the True God (vv. 13-15).

There is a fundamental factor which must underlie all real national greatness—love of God. This has an inseparable corollary—serving Him "with all your heart, and all your soul."

Says the wise man of Proverbs (14:34): "Righteousness exalteth a nation; but sin is a reproach to any people." We have well-nigh forgotten that fact. We need to be reminded of it again in God's word to Israel.

What is the result? The blessing of God upon the land, the giving of abundant harvest, in fact, the open-handed generosity of God.

II. Heeds God's Warning (vv. 16, 17).

This is the negative side. God dealt with Israel through promises if they were faithful, and the threat of judgment if they forgot Him.

One is as important as the other in the leading of a nation—and in the rearing of children. We, like our heavenly Father, should faithfully keep every promise; but we should just as surely fulfill every warning of coming judgment.

America has seen the handwriting of God in warning concerning its waywardness and sin. Will it heed and avoid further judgment?

III. Honors God's Word (vv. 18, 19).

Loving God and His Word is not a matter for theological speculation or for sanctimonious discussion in some dark cloister. Thank God the Christian faith is at its best in the ordinary affairs of life. It finds its proper place in the tender relationship of parent and child. Its teachings are pure, delightful, simple and entirely appropriate to any occasion, whether one sits or rises, walks or lies down. God's words are the words to be laid up in the heart and in the soul, to be taught to our children, to be the constant and normal subject of conversation.

IV. Testifies for God (vv. 20, 21). Here again we have the home before us. And it is, of course, the home which makes the nation. If the home speaks for God, the nation will do so, inevitably and effectively.

We may act, as did the pious Jew, fasten a little container bearing God's Word on our doorstep, but we may make the home itself and the life of its inhabitants an effective testimony for God before our neighbors.

It is obvious that the home either speaks for or against God. A profession of faith in Him, an outward reputation for adherence to religious principles which does not vitally touch our dealings with one another and with the community in which we live—these clearly testify not for God but against Him. On the other hand, who can estimate the value of a sweet and orderly Christian home? Whether it be on a dusty city street, or on a quiet country lane, it is a light that cannot be hid.

V. Counts on God for Victory (vv. 22-25).

God promised that if Israel diligently kept His commandments, loved Him and walked in His ways, they would be a nation that would overcome and dispossess their enemies, and prosper in every good purpose.

God desires the nation which honors His name to stand before the other nations of the earth victorious and prosperous.

The purpose of the Lord for Israel was a far greater one than they ever achieved, because they fell into sin and drew back in unbelief. The limits of the land which He proposed to give them, as stated in verse 24, far exceed that which they did possess in Palestine.

God's plans are large plans. His promises to us, like those to Israel, are stupendous. We need to learn to take Him at His word.

"No man shall be able to stand before you" (v. 25) was the promise to Israel. "Ask what ye will" (John 15:7) is the promise to us. They failed because they did not believe. God. Will we fail for the same reason?

Home Bureau Units Plan Active Month

Modern medicine and medicines will be discussed by the various Home Bureau local units at their meetings during December, which will also feature Christmas parties, gift exchanges, and the providing of gifts for hospitals and service men.

Advances made in the use of such drugs as the sulfa compounds and penicillin will be discussed, as will new ideas in the field of vaccination and immunization, and the use of simple home remedies.

Mrs. George White of Antioch, Lake county recreation chairman for the Home Bureau, is sending original party ideas to the unit recreation chairmen who will be in charge of the Christmas parties following the discussion periods at the various meetings.

Antioch unit will meet Dec. 22 in the home of Mrs. C. L. Kutil; Avon unit Dec. 21 in the home of Mrs. Charles Bratzke; Grayslake unit Dec. 14 in the Home Bureau office; Hickory unit Dec. 17; place to be announced later; Lake Regioa Dec. 15, in the home of Mrs. Roy Crichton.

GRAYSLAKE VISITORS ATTEND ANTIOCH UNIT MEETING

An interesting discussion on "The Family in the Community" was led by Mrs. Helen Volk, Lake County Home Bureau advisor, at a meeting of the Antioch Unit Nov. 29, Mrs. A. T. Savage, acting publicity chairman, reports. The meeting was held in the home of Mrs. John Heick.

"What the family has or lacks in the way of culture, affection and fine pride determines the influence of that family on the community," Mrs. Volk said.

Christmas gift suggestions were exchanged by the members.

Mrs. Curtis Wells, president, opened the meeting, leading in the "Salute to the Flag." Refreshments were served to the gathering, which included two visitors from the Grayslake unit, Mrs. Smith and Mrs. Ray.

ESTHER LONGLY AND GORMAN ANDERSEN WED IN QUIET CEREMONY

Miss Esther Longly and Gorman Andersen, both of Antioch, were united in marriage in a quiet ceremony Sunday afternoon, Nov. 21, at 2 o'clock, with the Rev. F. M. Flaherty of St. Peter's parish officiating.

A reception for 25 of their relatives was held at 3 o'clock in the bride's home on Victoria street.

"Ancient and Modern Necromancy, Alias Mesmerism and Hypnotism, Denounced," was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, November 28.

The Golden Text was, "Be merciful unto me, O God; for man would swallow me up; he fighting daily oppresseth me. . . . What time I am afraid, I will trust in thee" (Psalms 56: 1, 3).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Because thou hast made the Lord, which is my refuge, even the most High, thy habitation; There shall no evil befall thee, neither shall any plague come nigh thy dwelling" (Psalms 91: 9, 10).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The understanding, even in a degree, of the divine All-power destroys fear, and plants the feet in the true path—the path which leads to the house built without hands, 'eternal in the heavens.'" Take Time for Removal

One important step in removing stains is to take time to do a good job. Too many people hastily dab a stain with some removing fluid with a result that the stain remains, or a ring is formed in the material and the individual is thoroughly disgusted with the job. Time and patience are two necessary ingredients in all stain removal directions.

Equal to Ground Corn

Ground barley is practically equal to ground corn in feeding value for dairy cows and may be substituted for it pound for pound in the grain mixture. Barley should be ground to medium fineness or crushed before it is fed.

Jumping Doctors

"Jumping doctors" of the U. S. medical corps must be qualified parachutists, as they jump with the men and set up aid stations in combat areas occupied by paratroops.

Personals

Laddy Shunneson, who was two months old Nov. 22, yelled good and loud into the telephone receiver when his father, "Barney" Shunneson, telephoned from Pearl Harbor. The date was Shunneson, Sr.'s birthday anniversary. There are rumors that Baby Shunneson had to be prompted by a pinch or two, but bystanders at this end of the wire, expressed the belief that his "birthday wishes" were deeply appreciated.

Holy Stone

Cleanliness is the first order of every American soldier and sailor and the United States Government spends millions upon millions of dollars to keep our fighting men as clean and as healthy as circumstances will permit.

"Swab the deck!" cries out a petty officer and the men fall to with their "holy stone" equipment and in a short time everything is spick and span.

Buy War Bonds and more War Bonds and you know that you are sharing in the effort that will free the world from war lord domination.

U. S. Treasury Department

Sick Bay

In this war our wounded fighting men have a greater chance for recovery than in any previous conflict because of the medical aids and services that have been developed by the War and Navy Departments.

One of these aids is the Hospital Transport Plane service that has been bringing our wounded back from Africa.

Your increased and continued purchase of War Bonds is required to help the Treasury Department finance this hospital transport service. "Back the attack with War Bonds."

Sealed Grenades

During World War I, Germany used seaweed to seal grenades. The dry wrinkled substance expanded when it struck water or was exposed to high humidity. The expansion pushed a small metal point against the ampoule containing the explosive and the grenade exploded.

Don't Overheat Iron

Guard against overheating your electric iron. If you want it to give good service, it not only wastes current but it causes a fire hazard and in time may cause the heater wire to break down. Form the habit of disconnecting the iron every time you leave the ironing board, even to answer the doorbell or the telephone. You may forget to come directly back and a serious accident may result. It takes less than two minutes for most irons to heat again to the correct temperature for ironing, and it is always good policy to take time to be safe.

Peaches Add Color

When used fresh or in a preserved form, peaches add color and flavor to the daily meals, as well as providing a good source of vitamin A and a fair amount of vitamin C. While white peaches contain little or no vitamin A, a medium-sized dish of yellow peaches will supply one-fifth to one-half of the vitamin A an adult needs for a day, depending upon the variety of peach. Neither cooking nor canning changes the vitamin A value to any great extent.

Interested in Canals

George Washington was much interested in the commercial possibilities of canals, and fostered their construction.

NEW PROGRAM SET UP FOR LUNCH HOUR

The War Food Administration has set up a new program whereby the students who buy their lunch here at school will get a reduction in cost but not in the quality of the food.

This is a Federal and State program to give financial aid to the school lunch program. The school is no longer operating as a school cafeteria but as a school lunch program. In this program there are two types of lunches offered and they are:

A-1: Meat, potatoes, vegetable, bread, butter, salad, milk, dessert. Price, 25 cents.

A-2: Meat, potatoes, vegetable, bread, butter, salad, milk. Price, 20 cents.

C—One bottle of white milk. Price, one cent.

Federal program reimburses the school 9 cents for every A lunch sold and the state reimburses the school 2½ cents for every A lunch sold.

Federal program pays 2 cents for every ½ pint of white milk and the state pays up to one cent for every ½ pint of white milk.

White milk is the only milk sold on this program. Ice cream does not come under this program.

So far this new program has worked out quite well and every one seems to be quite pleased with it.

"ANNUAL" DRIVE IS ON

The 1943-44 Annual drive is on once again to obtain the one dollar deposits for the Annual. So far Miss Cullitan's home room is in the lead, followed by Miss Bullis'. Both are Junior home rooms.

Seaweed a Fertilizer

Valuable as seaweed has been as a food for both primitive and modern man, it has not always served in that capacity. It has been used as a fertilizer and as a fuel. In Iceland it has been buried in deep trenches, tamped into almost solid cakes, and later chopped into chunks for cattle fodder.

Master Camouflager

The beasts, birds and reptiles of the world, in many instances are outstanding examples of effective camouflage as hunters know from experience in trying to distinguish them from natural backgrounds. These creatures have become examples for the camouflaging of many types of war equipment under varying conditions.

Our boys must keep on fighting—we must keep on buying WAR BONDS until victory is won. Keep on BACKING THE ATTACK.

Grade School News

First and Second Grades

Larry Thompson spent his Thanksgiving in Rockford.

Susanne Birkhead visited the museums in Chicago.

Ruth Kufalk visited her grandmother in Lexington.

We are learning new Christmas songs.

Third Grade

The Third grade is getting ready for a Christmas play.

Jean Hughes had a birthday on November 29.

We give book reports every week.

We have very many absent in our room because of sickness.

Fourth and Fifth Grades

We are working on our Christmas program and have also started decorating our room.

Virginia Petersen is still absent. We hope she will soon be able to return to school. There are several pupils absent with colds this week.

Eighth Grade

The eighth grade pupils have made graphs in colored chalk on the blackboard. Others did theirs on paper.

Some of the eighth graders are going to give a Christmas play.

The eighth graders take turns bringing cookies to eat with our milk.

Sports

The sixth, seventh and eighth grade boys will begin basketball practice at the high school on Friday, Dec. 3. Many of the boys will be unable to take part in this activity due to the shortage of basketball shoes.

WAR BONDS
in action

A sprig of green on the Mediterranean front; today it's camouflage for an American machine gun nest. To win quicker our soldiers must have munitions and materiel, more and more. To provide them all of us must buy more and more War Bonds.

Re-establish Staple Spices

Staple spices, such as vanilla, ginger, allspice, black pepper, and nutmeg, are being re-established in the American tropics on a commercial basis.

CAN VITAMINS CHANGE GRAY HAIR?

According to Good Housekeeping tests with Calcium Pantothenate on gray hair:

Age—did not seem to affect results. The earliest response occurred in a 50 year old; the latest in a 25 year old.

Color—began to appear near the roots of the hair. The color may not appear all over the head at the same time. Symmetrical areas, perhaps on the temples or the back of the head, may show traces of color first, after which the color will spread to other parts of the head.

Time—varied from 1 month to 6 months.

Results—88% of those tested had positive evidence of a return of some hair color.

Now thousands use GRAYVITA, which contains 10 mgm. of Calcium Pantothenate (the tested amount). PLUS 420 U.S.P. units of Vitamin B1. Try GRAYVITA. 30 day supply, \$1.50, 100 days, \$4.00. Phone, write.

WEEKLY NEWS ANALYSIS

First U. S. Landings on Gilbert Islands Reveal New Strategy in Jap Campaign; Diplomacy Claims European Spotlight; Chinese Battle for Provincial Capital

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)
Released by Western Newspaper Union.

Gilberts—Landing under cover of the booming guns of American warships, U. S. army and marine forces swarmed ashore on Tarawa, Makin and Apamama in the Gilbert islands and pushed back the Japs in stiff fighting, amid coconut palms and jungle brush.

Midway between Hawaii and Australia, the Gilberts lie astride U. S. communication lines to the South Pacific area. Consisting of numerous islets, Tarawa, Makin and Apamama are fronted on their western sides with sunken reefs, sandspits and coral patches; but on the east, ships can approach within a half-mile or mile from shore.

As U. S. forces poured ashore, Japanese artillery sought to break up landing formations. On the islets themselves, Jap machine gunners operated from pill box defenses hidden in the dense foliage against advancing U. S. infantry.

DADS' DRAFT: Slowed Again

To President Roosevelt's desk for signature went a senate-house bill which would put all fathers in the U. S. at the bottom of the draft list by requiring the induction of all eligible single men first.

Approved by voice votes of both legislative chambers, the bill also would abolish the present practice of drafting men according to their employment in essential and non-essential industry classifications set up by the War Manpower commission.

The bill provides for the review of any occupational deferments by the appeals board within the district where the person works, and would establish a special medical commission to study the possibility of lowering physical standards of the services.

WHEAT:

Loan Stocks Down

Through the second week of November, 417,577,350 bushels of 1943 wheat were under government loan, as the feed situation remained tight with many areas in the corn belt unable to produce sufficient stocks.

The loan figures compared with 312,884,567 bushels held by the government at the same time last year. Of the current stocks, 37,333,271 bushels were on farms. With market prices at practically all terminals favorable for redemption, more than 2½ million bushels of 1943 loans have been liquidated.

To counter the tight feed situation, an Iowa State college bulletin suggested marketing pigs at 20¢ to 22¢ pounds this fall instead of 27¢ pounds to assure maintenance of hog numbers next spring.

INDEPENDENCE:

For Lebanon, Syria

Under League of Nations mandate, France was entrusted with supervision over the small countries of Lebanon and Syria, to the north of the Holy Land.

When Gen. Charles de Gaulle's Free French took over these territories in 1941 with British aid, they promised their people they would grant them independence. But when the Lebanese took matters into their own hands recently and reviled their constitution to accomplish their freedom, the Free French's resident supervisor disbanded the government and placed the president and premier under arrest.

Rioting ensued, and to Lebanon's ancient capital of Beirut flew Free France's No. 1 trouble-shooter, Gen. Georges Catroux. Lebanon's officials were released, and not only Lebanon, but also Syria, was told that Free France would enter into negotiations for their independence.

Gen. Georges Catroux

MEDITERRANEAN:

Turkey in Picture

As the Allied attack slowed before the Nazis' strong mountain line some 85 miles south of Rome, attention in the Mediterranean area was focused on the diplomatic front, where Turkey maintained its delicate relations with both sides.

Following conversations between representatives of the two governments in Cairo, Turkey reaffirmed her military alliance with Great Britain, calling on either nation to help the other in case of attack in the Mediterranean area. Turkey's entrance into the war would give the Allies a stopping stone into eastern Greece and eliminate complex sea operations against the country, but the question appeared to be whether the wily Turks would consider an Allied offensive as a protection of their interests, putting the alliance into effect.

In Yugoslavia, guerrillas continued vexing operations against German commitment on lines and industries supplying the Nazis with war materials.

On the Continent, 1,000 RAF heavy bombers struck at Berlin, bringing every section of the German capital of 5,000,000, and disrupting gas, electricity and street car facilities.

CHINA:

Japs Attack

Toward Hunan province's capital of Changsha, two columns of a Japanese force of 50,000 men launched a determined attack, making progress in early fighting.

The attack marked the Japs' fourth major effort to take Changsha, the other campaigns failing when wily Chinese commanders struck at the enemy's extended lines.

This time, however, the Japs made every attempt to bull their way through, massing men and material and using bombers to smash at Chinese defensive positions.

To counter the Jap attack, the Chinese sprung a drive through the mountains to the rear of the fighting, designed to relieve pressure on their main front.

WAR PRODUCTION:

Experience Counts

Because of better management, greater effort by labor and more trained workers, U. S. arms output in October registered its biggest gain since last April, the War Production board said.

Stimulated by its experience, U. S. industry can now be expected to function at peak efficiency, WPB declared, with this efficiency mostly accounting for increases in production, since a limit has been practically reached on material and manpower.

During October, WPB said, stress was laid on output of aircraft, which showed a 10 per cent increase over September; ships, up 5 per cent; ammunition, up 11 per cent, and communications equipment, including radar, up 9 per cent.

MORAL STANDARDS:

Demand High Level

To molders of public opinion, the Federal Council of the Churches of Christ in America appealed for leadership in maintaining the highest sex standards and impressing the dignity with which men and women are endowed as custodians of the home.

Protesting against the exploitation of material in newspapers and magazines which degrades thought and emotion, the council lashed against the portrayal of the human body in ways detractive to the reverence in which men and women should be held as creators of homes and guardians of the sacredness of family life.

Demanding strict enforcement of laws against sexual promiscuity and commercialized prostitution, the council said venereal diseases have rendered "millions of American men and women unable to serve their country as they ought."

The desert's warm, shifting sands have covered historic battlefields of World War II in North Africa, with only faint traces of tank and artillery tracks remaining, and these mostly in scarred green vegetation.

OIL:

U. S. Offers Leases

To capitalize on the 17,000,000 barrels of oil and gas underlying the Cerritos channel between Los Angeles and Long Beach, Calif., the U. S. government invited private operators to submit bids for leasing privileges to develop the properties.

Besides obtaining a bonus for use of the land, the U. S. will also receive a royalty of 16½ per cent on production from the area. Under terms, 10 wells must be drilled to production within 12 months, and six more within 18 months of delivery of the lease.

Highest bonus ever paid for drilling oil on federal lands was \$1,407,500 for 262½ acres in the Elk basin field in Wyoming.

U. S. PAYROLL:

Lap Off 131,053

During the period from June to September of this year, 131,053 employees were lopped off the federal payroll, Senator Harry F. Byrd, Va., revealed as chairman of the joint economy committee. This left 2,964,465 still at work for Uncle Sam.

The total discharged amounted to 157,997, but the figure was brought down by the navy's employment of 15,314 new workers, and an increase of 7,920 in the post office's personnel.

The war department trimmed its payroll by 129,000; the War Manpower commission by 11,931; the Panama canal by 3,548, and the agriculture department by 2,550.

RUSSIA:

Nazis Hit Back

Duplicating their tactics used at Kharkov last winter, the Nazis struck at the Reds' extended positions at the important rail junction of Zhitomir and hurled them back 20 miles to the east in heavy fighting.

As Field Marshal Fritz von Manstein's 150,000 Nazi troops attacked near Zhitomir, the Russ sought to ease pressure on their lines in this sector by intensifying their drive to the north near Gomel, within 100 miles of the old Polish border.

As the Nazi forces held fast to the iron and manganese centers of Krivoy Rog and Nikopol in the south, the Reds probed the enemy's lines on either side of these strongholds, in an effort to find a weak spot for a break-through.

Fighting Russian units on the east coast, the Nazis clung to the Crimea, which dominates the Black sea.

WAR LOAN:

To Begin 4th Drive

With the third war loan drive well over its goal of 15 billion dollars, the U. S. treasury announced plans for a fourth drive beginning January 18.

Although the 11 billion dollar goal of the new drive is below the last mark, individual investors will be asked to contribute 5½ billion dollars, more than they were requested to do during the third campaign.

To meet investment requirements, savings deposit departments of commercial banks will be allowed to purchase limited quantities of a 2½ per cent issue maturing in 1970, and a 2½ per cent security due in 1959.

To sell as many securities as possible with current purchasing power, the government will ask banks to refrain from loaning money for speculative purchases.

PROFITTEERING

Almost two-thirds of the nation's farmers believe that manufacturing companies are making "excessive profits" on war orders, a survey taken by the Association of National Advertisers reveals. Results of interviews of 2,500 typical farmers, divided into seven classes, showed that 60 per cent think that profiteering is going on, although 75 per cent of the group are of the opinion that industry is doing a "reasonably good job." Seventy per cent stated that labor could do better.

HIGHLIGHTS . . . in the week's news

BASKETBALL: Following its course in abandoning football for the duration, the Midwest Conference of colleges has decided to drop inter-mural basketball games.

TINY: Eddie Bray, University of Illinois back, who weighs only 142 pounds, has carried the ball 80 times for a total of 576 yards gained in six games. He is only 17 years old.

MAGNETISM: Transatlantic broadcasting was rendered practically impossible by magnetic storms on November 21, the Columbia Broadcasting company said.

TORPEDO: Germany really has a new secret weapon in the "sound-directed torpedo" that can turn corners and follow the vibrations of a ship's propellers.

How any housewife can help

KEEP PRICES DOWN!

1. MAKE IT DO

Fix it yourself

Don't buy new things. Repair the old ones. Goods are scarce. Needless buying of scarce goods bids prices up, and you'll have to pay them.

Make it last

Don't throw things out. Wear them out. If you buy things you don't need now, you will have to pay more for the things you do need later on.

Eat it all up

Buy just enough food for your family. Then use up every scrap. There's enough to go 'round—but none to spare. Waste makes food prices soar.

2. DO WITHOUT

Don't get into debt

Don't go into debt for things you don't absolutely need. And settle up your old debts. Pay as you go and you'll keep the cost of living down.

Shun black markets

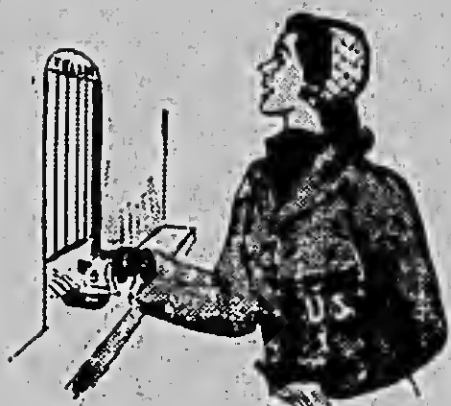

Pay no more than regular ceiling prices. Pay more and you're supporting a black market which boosts prices and robs others of their rightful share.

Destroy extra coupons

Buy only what you need. If you have ration coupons left, tear them up. Your coupons are simply insurance that you'll get what you need—if you need it. If you don't need it, don't buy it.

3. SAVE YOUR MONEY

Put it in the bank

Start a savings account. Then you'll have it for any emergency. And then it can't compete for scarce goods and force prices up.

Put it in insurance

Protect your family and yourself for tomorrow—and keep prices down today by using your money to provide for the future rather than to compete for scarce goods now.

Put it in War Bonds

And keep them. Every dollar in War Bonds is a dollar less to bid up prices. Put your money to fighting the war and building a sound America for peace.

Use it up . . . wear it out . . . make it do . . . or do without . . .

News of the Boys

(continued from page 1)
Cpl. Robert D. Strang has recently been transferred from Sicily to England.

—V—
Word from Sgt. Howard G. Strang is to the effect that he has arrived safely "somewhere in India." He states that the voyage was uneventful, but one he will long remember.

—V—
Pvt. Peter L. Zelen has been transferred from Laurel, Miss., to the New York APO list.

—V—
From Pvt. Tony B. Sciaccaro, Camp Blanding, Fla., "Please change my address for the Antioch News. I sure do miss it. Reading it makes you feel right at home." Pvt. Sciaccaro was formerly at Camp Walters, Texas.

—V—
Pvt. Ray Vogel will return to his camp at Fort Dix, N. J., after a fifteen day furlough spent with his parents and friends in the vicinity of Wilmet.

—V—
First Class Seaman Dale Schmah, USN, visited here with his sister, Audrey Schmah, and his parents, near Antioch, recently.

—V—
Pvt. Jack E. Flanagan of Camp Stewart, Ga., was home recently to spend a ten-day furlough with his parents. Mr. and Mrs. E. J. Flanagan.

Same Tune
"America," beginning with the words "My country, 'tis of thee," has the same tune as the British national anthem. It was composed in Andover, Mass., in the winter of 1831-1832 by Rev. Samuel Francis Smith, and he set it to the tune of "God Save the King."

First Paper
First newspaper in North America, "Public Occurrences," was published in Boston in 1689 by Benjamin Harris, who planned to issue his newspaper once a month. "or oftener, if any glut of occurrences happen."

Autumnal Equinox
Autumnal equinox, marking the beginning of autumn in the countries of North America, and spring in the countries south of the equator, arrives September 21.

WAR BONDS

Your money goes into battle every time you invest in War Bonds—goes up to the German lines in the form of tanks, planes, assault boats as pictured here in the Mediterranean area.
Success of our troops depends upon the help they get from the home front. Bullets fired yesterday won't win tomorrow's battle. War Bonds bought last month won't pay for our next offensive. Give your dollars action: Buy More War Bonds.
U. S. Treasury Department

Army war dogs are trained as specialists for sentry duty, attack operations, messenger service, silent scouts, casualty relief, or as pack and sledge dogs.

Romans Grew Olives
Ruins of Roman millstones in Tunisia show that olive culture was known there before the Arabian conquest.

Eyes Focus Differently

The eye focuses differently on different hues, being nearsighted to bluish rays and farsighted to reddish, says a bulletin of the National Association of Manufacturers. This action is seldom important where colors are subdued. An end wall painted to offer visual relaxation should be greenish or bluish in tone rather than yellow or red, since such colors are inherently more retiring, according to the authority cited.

Sweating Closet

A frequent hot weather complaint of the bathroom is a water closet that sweats. Sweating on the outside of closet bowls and tanks is from moisture in the air deposited when it comes into contact with surfaces chilled by cold water in the supply system. When the water reaches room temperature, there is no further sweating.

Check Circuit

Before you use your iron, check the circuit, especially if you are moving to a new home or apartment. Thermostatically controlled irons are built to operate on an alternating current, and you'll ruin the iron if you plug it into direct current.
